

Keep Collaborating Microsoft 365 for Enterprise

Boost productivity and drive business growth on the go

Designed with enterprise in mind, Microsoft 365 for Enterprise is the all-in-one cloud productivity solution for large organisations. Unlock your employees' potential with the freedom to work together from anywhere, while avoiding potential security or compliance risks with Microsoft's trusted security enhancement tools.

Built-in intelligence features harness the power of AI and analytics to transform your organisational data into rich insights that enable you to increase efficiency and drive business growth in the office or on the go.

We've got
the cloud
skills and agility
to accelerate
business
growth.

Smart analytics, enhanced security and seamless collaboration in one

Powerful tools to support your business

Connect employees to the people, information, and content they need to improve productivity and transform collaboration.

Hub for teamwork

Digital workspaces enable teams and cross-functional teams to work together in a virtual central location.

Modern Business Voice Solution

Teams Business Voice transforms your on-premise PBX into a fully integrated cloud-based communication solution.

Apps that keep you engaged

Connect with employees and staff via Sway Newsletter, SharePoint Sites, Yammer and Teams Live Events.

Super easy administration

Access and manage all your cloud-based services from a single user-friendly dashboard.

Always accessible

Get uninterrupted access to your cloud-based services and critical data with guaranteed 99.9% uptime.

Tried-and-trusted security

Keep your critical business data safe with Microsoft 365's built-in security features, including encryption, security protocols and operational security.

Pay for what you use

Avoid the expense of a big once-off purchase with subscription-based pricing. Only provide users with the tools they need, and scale when your business needs it. Cancel anytime.

We're here for you

Our world-class data centres and dedicated support team are located in key African geographies, so you're never far from the support you need to keep your business growing.

Keep Collaborating Microsoft 365 for Enterprise

Choose the right solution for your business

Microsoft 365 Apps for Enterprise

Designed for organisations that only need access to well-known Office 365 apps including desktop versions of Outlook, Word, Excel, PowerPoint, OneNote (plus Access and Publisher for PC only).

- Use one license to fully install Office apps on five mobile devices, five tablets, and five desktops.
- Automatically update your apps with new features and capabilities every month.
- Store and share files with 1 TB OneDrive cloud storage per user.

Office 365 E1

Designed for cloud-native businesses with tools that let your teams accomplish more with simple file sharing, real-time co-authoring, and online meetings – all accessible anywhere.

- Access web-based Office apps and business services. Office desktop apps not included.
- Get email, file storage and sharing, meetings, and instant messaging.
- Keep your data safe with five layers of security and monitoring.

Office 365 E3

Designed for enterprises that require fully integrated communication and collaboration services coupled with advanced compliance features and full IT power. Office 365 E3 offers all the features of Microsoft 365 apps for enterprise and Office 365 E1, plus security and compliance tools, such as legal hold, data loss prevention and more.

- Use one license to fully install Office apps on five mobile devices, five tablets, and five desktops.
- Keep your data safe with five layers of security and monitoring.
- Reduce IT costs, and move to the cloud on your terms.

Office 365 E5

Designed to simplify your infrastructure with one platform for calling, conferencing, video, and sharing using Office apps you already know. Office 365 E5 offers all the features of Office 365 E1, plus advanced security, analytics, and voice capabilities.

- Includes full desktop versions of Office apps.
- Get advanced security, analytics and voice capabilities.
- Guard your mailbox with Office 365 Advanced Threat Protection.
- Make, receive, and transfer calls with Teams Business Voice.
